Student Safety Physical and Mental Well-being	Physical Building / Playground Suitability	Transportation	Viable / Sustainable Solution	Transitions
<p>Ensure influence of older students on younger students is positive. Provide students with leadership opportunities. Safety of school location. Ensure that appropriate supervision is available. Minimize children attending school outside of their neighbourhood.</p>	<p>Ensure that resources are made available to upgrade building so that it is suitable for a younger cohort. Location of building is undesirable. Concerned about younger students in a school yard located adjacent to a four-lane highway.</p>	<p>Availability of bussing and/or bus drivers should be considered. Consideration should be given to minimizing the length of time students are on the bus. Minimize the mixing of elementary and secondary students on the bus. Bussing students to Bowmanville HS is a concern.</p>	<p>Does the solution address all the issues? Is the proposed solution sustainable? Will portables be required?</p>	<p>Minimize transitions throughout school career. Keep divisions (i.e., primary, junior, intermediate) together. Concerned about child care options.</p>

Newcastle Public School

Remain status quo as a dual track JK/SK – Grade 5 school for the 2023-24 school year.

The Pines Senior Public School

The Pines Senior PS will offer Grade 6-8 (English stream) and Grade 6 FI for the 2023-24 school year. Available classroom space at Clarke HS will be utilized to accommodate students from The Pines Senior PS.

Provide time required to ensure smooth and efficient transition of students, and to complete any renovations, if required.

Utilize all available space at Newcastle PS as classrooms (i.e., stage area, portion of library, portables) for the 2023-24 school year.

New registrations of out-of-boundary students will not be permitted.

The Board will continue to submit Capital Priorities Program Requests for new elementary/secondary school at the Grady Drive/Ruddell Road Board owned property.
